

# FUTRUS® F-SERIES CORIAN® DOOR SYSTEM

A RANGE OF CORIAN® SOLID SURFACE DOOR STYLES WITH EMBEDDED HINGE CONNECTIONS THAT ARE FULLY COMPATIBLE WITH PRE-EXISTING TRADITIONAL CASEWORK

**FUTRUS**  
SOLUTIONS WITH CORIAN® DESIGN

The F-Series Corian Door System offers superior hygiene, durability, and life cycle, compared with traditional doors made of laminate, wood or metal. Made with seamless, bleach cleanable Corian solid surface, which is Greenguard Certified to resist the growth of viruses, bacteria and mold to support the highest standards of infection control and reduce the risk of Hospital Acquired Infections (HAIs). Corian surfaces also resist dents, scratches, chipping and eliminate the risk of delamination, commonly associated with traditional casework doors, for superior life cycle. This unique door system also provides impact resistant protection for base cabinets. Featuring a range of adaptable door styles to meet the needs of any casework application and patented, embedded metal hinge connections for maximum strength attachment to traditional casework. Available in standard or custom door sizes, a range of hardware options and all Corian colors to compliment any design scheme.

## STANDARD FEATURES

- Made with 3/4" Corian® solid surface
- Available up to 96"H
- Front Profiles: Standard, Cove Edge or Glass Insert
- Door Back Profiles: Standard or Infection Control (Coved)
