FUTRUS® ADA SINK MODULES

ADA COMPLIANT CORIAN® SINK WITH PLUMBING ENCLOSURE

FUTRUS
SOLID SURFACE SOLUTIONS

The Futrus® ADA sink modules feature a seamlessly integrated sink and counter surface made with Corian® solid surface for exceptional hygiene and long-term durability. The perfectly angled basin slope minimizes splashback and the nonporous surface delivers superior resistance to chipping, cracking, staining, impact damage and fire spread compared to lower-grade polyester blends.

A removable, tamper-resistant access panel makes plumbing maintenance simple, while the continuous metal wall bracket ensures easy installation. Fully ADA compliant and designed to support shallow-depth counter surfaces.

Ideal for high-use environments, including healthcare, hospitality and retail settings

STANDARD MODULE DIMENSIONS

Width

30"

Depth

21"

Apron
