The Erga bench combines modern architectural style with ergonomic functionality. Featuring raised ends designed to provide a natural hand hold that makes it easier for users, including those with reduced mobility, to sit and stand. The raised profile also creates a soft boundary that helps keep personal items like mobiles and bags from slipping off.

Made with Corian solid surface for superior durability and hygiene and engineered with patented structural framing for greater impact resistance and the ability to span up to 10 feet without additional leg support.

Ideal for high traffic environments including airports, hospitals, hospitality, higher education and office settings.

- Made with solid surface
- Seamless & nonporous
- Resists scratching, staining, chipping & impacts
- Standard & custom sizes
- Patented construction
- Resists virus, bacteria & mold growth
- Available in all Corian solid surface colors
- Optional seamless wireless charging & power outlets
- Furniture glides or floor mount
